PRINTED FOR THE COLLEGE, MDCCCCXV

Calendar

1915

October 14—Thursday. Entrance Examinations: for first year students at nine o'clock A. M., in Brunswick.

October 15—Friday. Re-examinations, deferred examinations and examinations for advanced standing for second year, in Brunswick, in Anatomy, at eight o'clock A. M.; in Physiology at two o'clock P. M.; in Chemistry at seven P. M.

October 16—Saturday. Re-examinations, deferred examinations and examinations for advanced standing for third year, in Portland, in Anatomy at nine o'clock A. M.; in Physiology at two o'clock P. M.; in Chemistry at seven P. M.

Re-examinations, deferred examinations and examinations for those wishing to enter the fourth year will be held in Portland on Friday and Saturday, October 15 and 16, at hours to be hereafter appointed.

Thanksgiving Recess from 1.30 P. M., Wednesday, November 24, to 8 A. M., Monday, November 29.

Vacation from 6 P. M., Wednesday, December 22, to 8 A. M., Tuesday, January 4, 1916.

1916

Feb. 22—Tuesday. Washington's Birthday.

Vacation from noon Saturday, March 25, to 8 A. M., Tuesday, April 4.

April 19—Monday, Patriots' Day.

May 30—Memorial Day.

June 7 to 21—Examinations. Wednesday to Wednesday of second week.

June 22—Thursday. Commencement.

Summer vacation of sixteen weeks.

FACULTY

REV. WILLIAM DEWITT HYDE, D.D., LL.D., PRESIDENT.

85 Federal Street, Brunswick.

FRANKLIN CONANT PAYSON, LL.D., *from the Board of Trustees,*
Lecturer on Medical Jurisprudence.

120 Exchange Street, Portland, Maine.

DANIEL ARTHUR ROBINSON, A.M., M.D., *from the Board of*
Overseers.

140 Hammond Street, Bangor, Maine.

ERNEST BOYEN YOUNG, A.B., M.D., *from the Board of Overseers.*

434 Marlboro Street, Boston, Mass.

ADDISON SANFORD THAYER, A.B., M.D., DEAN, and *Professor*
of Medicine.

10 Deering Street, Portland.

FRANK NATHANIEL WHITTIER, A.M., M.D., *Professor of Path-*
ology and Bacteriology, and DEPUTY DEAN in Brunswick.

161 Maine Street, Brunswick.

WALTER EATON TOBIE, M.D., *Professor of Anatomy, and* SECRE-
TARY OF THE FACULTY.

3 Deering Street, Portland.

FREDERIC HENRY GERRISH, M.D., LL.D., *Professor Emeritus of*
Surgery and Professor of Medical Ethics.

675 Congress Street, Portland.

CHARLES DENNISON SMITH, A.M., M.D., *Professor of Physiology.*

Maine General Hospital, Portland.

WILLIS BRYANT MOULTON, A.M., M.D., *Professor of Ophthalmol-*
ogy and Otology.

180 State Street, Portland.

JOHN FRANKLIN THOMPSON, A.M., M.D., *Professor of Diseases*
of Women.

211 State Street, Portland.

EDWARD JOSEPH McDONOUGH, A.B., M.D., *Professor of Ob-*
stetrics.

51 Deering Street, Portland.

CHARLES HENRY HUNT, A.B., M.D., *Professor of Materia Med-*
ica, Pharmacology and Therapeutics.

183 Spring Street, Portland.

MARSHALL PERLEY CRAM, PH.D., *Professor of Chemistry.*

83 Federal Street, Brunswick.

ALFRED KING, A.B., Sc.D., M.D., *Professor of Surgery.*

610 Congress Street, Portland.

HENRY HERBERT BROCK, A.B., M.D., *Professor of Clinical Sur-*
gery.

687 Congress Street Portland.

ALFRED MITCHELL, JR., A.B., M.D., *Professor of Genito-Urinary*
Surgery.

655 Congress Street, Portland.

GUSTAV ADOLF PUDOR, A.B., M.D., *Professor of Dermatology.*

134 Free Street, Portland.

Bowdoin Medical School

- EDVILLE GERHARDT ABBOTT, A.M., Sc.D., M.D., *Professor of Orthopedic Surgery.*
14 Deering Street, Portland.
- GILMAN DAVIS, M.D., *Professor of Diseases of the Nose and Throat.*
655 Congress Street, Portland.
- FRED PATERSON WEBSTER, A.B., M.D., *Professor of Pediatrics.*
12 Pine Street, Portland.
- WILLIAM HERBERT BRADFORD, A.M., M.D., *Professor of Clinical Surgery.*
208 State Street, Portland.
- HENRY MARSHALL SWIFT, A.B., M.D., *Professor of Neurology.*
30 Deering Street, Portland.
- HENRY DARENYDD EVANS, A.B., *Professor of Public Hygiene.*
State Laboratory, Augusta.
- MANTON COPELAND, Ph.D., *Professor of Embryology and Histology.*
88 Federal Street, Brunswick.
- JAMES EDWARD KEATING, A.B., M.D., *Professor of Clinical Medicine.*
1 Deering Street, Portland.
- THOMAS JAYNE BURRAGE, A.M., M.D., *Professor of Clinical Medicine.*
139 Park Street, Portland.
- GILBERT MOLLESON ELLIOTT, A.M., M.D., *Assistant Professor and Demonstrator of Anatomy.*
152 Maine Street, Brunswick.
- RICHARD DRESSER SMALL, A.B., M.D., *Assistant Professor of Obstetrics.*
154 High Street, Portland.
- JOSEPH BLAKE DRUMMOND, A.B., M.D., *Assistant Professor of Anatomy.*
54 Deering Street, Portland.
- ALFRED OTTO GROSS, Ph.D., *Assistant Professor of Histology and Embryology.*
11 Boody Street, Brunswick.
- HERBERT FRANCIS TWITCHELL, M.D., *Instructor in Clinical Surgery.*
10 Pine Street, Portland.
- WALTER DARWIN WILLIAMSON, M.D., *Instructor in Clinical Surgery.*
7 Deering Street, Portland.
- CHARLES MILTON LEIGHTON, A.B., M.D., *Instructor in Clinical Surgery.*
365 Congress Street, Portland.
- WILLIS BEAN MOULTON, A.B., M.D., *Instructor in Diseases of Women.*
655 Congress Street, Portland.
- PHILIP PICKERING THOMPSON, A.B., M.D., *Instructor in Diseases of Women.*
203 State Street, Portland.
- LOUIS ANDREW DERRY, A.B., M.D., *Instructor in Materia Medica, Pharmacology and Therapeutics.*
261 Congress Street, Portland.
- WILLIAM WHEELER BOLSTER, A.B., M.D., *Instructor in Physiology.*
149 College Street, Lewiston.
- EDWIN MOTLEY FULLER, A.B., M.D., *Instructor in Pathology and Bacteriology.*
808 High Street, Bath.
- FRANCIS JOSEPH WELCH, A.B., M.D., *Instructor in Pulmonary Diseases.*
698 Congress Street, Portland.
- HAROLD JOSSELYN EVERETT, A.B., M.D., *Instructor in Obstetrics.*
727 Congress Street, Portland.

Faculty

- CARL MERRILL ROBINSON, A.B., M.D., *Instructor in Anatomy and Superintendent of the Dispensary.* 332 Spring Steet, Portland.
- LEON STANLEY LIPPINCOTT, A.B., M.D., *Instructor in Physiology.* 8 Noble Street, Brunswick.
- HARRY SMITH EMERY, A.B., M.D., *Instructor in Clinical Medicine.* 721 Stevens Avenue, Portland.
- ERNEST WOODBURY FILES, A.B., M.D., *Instructor in Clinical Medicine.* 522 Deering Avenue, Portland.
- HERBERT ELDRIDGE MILLIKEN, M.D., *Instructor in Medicine.* 156 Free Street, Portland.
- RICHARD FITCH CHASE, M.D., *Instructor in Gastro-Enterology.* 30 Deering Street, Portland.
- FORREST CLARK TYSON, M.D., *Instructor in Mental Diseases.* State Hospital, Augusta.
- PHILIP WESTON MESERVE, A.B., *Instructor in Chemistry.* Brunswick.
- HAROLD ASHTON PINGREE, M.D., *Clinical Assistant in Orthopedics.* 156 Free Street, Portland.
- FRANCIS WILSON LAMB, M.D., *Clinical Assistant in Orthopedics.* 156 Free Street, Portland.
- ORAMEL ELISHA HANEY, M.D., *Clinical Assistant in Surgery.* 528 Deering Avenue, Portland.
- LUCINDA BLAKE HATCH, M.D., *Clinical Assistant in Obstetrics.* 27 Deering Street, Portland.
- ROLAND BANKS MOORE, M.D., *Clinical Assistant in Pediatrics.* 768 Congress Street, Portland.
- ALBION HENRY LITTLE, M.D., *Clinical Assistant in Diseases of the Eye and Ear.* 763 Congress Street, Portland.
- ERNEST BERTRAND FOLSOM, A.B., M.D., *Clinical Assistant in Medicine.* 77 Granite Street, Portland.
- STANWOOD ELMAR FISHER, M.D., *Clinical Assistant in Disease of the Nose and Throat.* 190 State Street, Portland.
- MILLARD CARROLL WEBBER, A.B., M.D., *Clinical Assistant in Diseases of the Eye.* 849 Congress Street, Portland.
- MERLON ARDEEN WEBBER, A.B., M.D., *Assistant in Surgery.* 312 Congress Street, Portland.
- ALFRED WILLIAM HASKELL, M.D., *Clinical Assistant in Ophthalmology.* 145 High Street, Portland.
- ERASTUS EUGENE HOLT, JR., A.B., M.D., *Clinical Assistant in Ophthalmology.* 723 Congress Street, Portland.
- JOHN HOWARD ALLEN, M.D., *Clinical Assistant in Otology.* 717 Congress Street, Portland.
- ELMER HENRY KING, A.B., M.D., *Assistant Demonstrator of Anatomy.* 821 Congress Street, Portland.
- GEORGE THOMAS LITTLE, LITT.D., *Librarian.* 8 College Street, Brunswick.

Students in 1914-15

FOURTH YEAR—Class of 1915

Name	Residence

Announcement.

The Bowdoin Medical School was established in 1821 by the first Legislature of the State of Maine, and was placed under the control of the Trustees and Overseers of Bowdoin College.

The course of instruction covers four years of thirty-six weeks each. The studies are distributed as follows:

FIRST YEAR: Anatomy, Embryology, Histology, Physiology, Chemistry, Personal Hygiene.

SECOND YEAR: Anatomy, Physiology, Chemistry, Pathology, Bacteriology.

THIRD YEAR: Medicine, Surgery, Clinical Pathology, Materia Medica and Pharmacology, Public Hygiene, Diseases of Women, Obstetrics, Diseases of the Eye, Ear, Nose, Throat, Skin, and Genito-Urinary System.

FOURTH YEAR: Medicine, Surgery, Orthopedic Surgery, Therapeutics, Medical Jurisprudence, Medical Ethics, Diseases of Children, Neurology, and Mental Diseases, with additional clinical instruction in the studies of the third year.

The students of the first and second years are instructed at Brunswick, where the scientific departments of Bowdoin College contribute facilities for teaching the primary branches. The third and fourth year classes are taught in Portland on account of the clinical advantages afforded in that city.

As heretofore, the Maine General Hospital (140 beds) will furnish opportunities for bedside study. Other institutions in Portland, including the Maine Eye and Ear Infirmary, the City Hospital, the Children's Hospital, the Marine Hospital, the Female Orphan Asylum, the St. Elizabeth's Orphan Asylum, the Holy Innocents' Home, the Maine School for the Deaf and the Maine School for the Blind will continue to contribute to the instruction of the students of the Medical School. The Edward Mason Dispensary, a gift to Bowdoin College from Mr. and

Bowdoin Medical School

Mrs. Hugh J. Chisholm, increases notably the facilities for clinical teaching.

The Library of the Medical School, containing over 5,000 volumes, has been combined with that of the College, which numbers over 103,000 volumes. Both collections are under the same administration and are at the service of the medical students. The more recently published medical works and current numbers of professional journals are kept in a separate room for their especial use. It is not the policy of the School to furnish textbooks through its library, or to buy largely in medical literature; yet by means of the catalogue of the Library of the Surgeon General's Office and the system of inter-library loans, the Librarian is able to procure for use in serious investigation almost any book that may be desired.

The library of the Maine Academy of Medicine and Science, now the property of the Maine Medical Association, is housed conveniently at the Maine Eye and Ear Infirmary, and is available for the use of students of the Medical School.

The expenses of maintenance of this school are defrayed in greater part by the income from invested funds, especially from the Merritt-Garcelon bequest. A large number of students is neither expected nor desired. Modern methods in medical education demand individual instruction. The Boards of Bowdoin College and the teachers in the Medical School believe that the record of long and honorable service, which the school has secured, can be maintained best, if the number of students is small, and the standard of teaching is high.

The ninety-sixth annual course will begin on Thursday, the 14th of October, 1915, and will continue thirty-six weeks.

ADMISSION

The requirement for admission is one year of study in a reputable college, in which time particular attention shall have been given to physics, chemistry, biology, and either French or German. Two years of college work are advised, and in and

General Statement

after the autumn of 1916 will be required from all candidates for admission.

Students from other schools who apply for advanced standing must comply with the requirements for admission to the first year, must give satisfactory evidence that they have completed courses of instruction and must pass examinations in all of the branches previously pursued by the class which they wish to enter. Certificates stating that examinations have been passed in other schools are not accepted in lieu of examinations.

Time spent in pharmaceutical, dental and veterinary institutions does not entitle a student to examinations for advanced standing.

Graduates of other schools are not eligible for a degree from this school without attendance upon a full year of instruction immediately preceding the examination for such a degree.

Examinations for admission to the school will be held at nine o'clock on the morning of the first day, Thursday, the 14th of October, in Brunswick.

Re-examinations, deferred examinations and examinations for advanced standing for those who desire to enter the second year will be held in Brunswick on Friday, the 15th of October. Examinations in anatomy at eight o'clock A. M., in physiology at two o'clock P. M.

Re-examinations, deferred examinations and examinations for advanced standing for those wishing to enter the third year will be held in Portland on Saturday, October 16. Examinations in anatomy at nine o'clock A. M., in physiology at two o'clock P. M.

Re-examinations, deferred examinations and examinations for those wishing to enter the fourth year will be held in Portland on Friday and Saturday, October 15th and 16th, at hours to be hereafter appointed.

At the end of the first, second and third years, students who have passed successful examinations will receive certificates from the Secretary.

A student who fails to pass any branch at the required examination in June, may present himself for re-examination at the

Bowdoin Medical School

beginning of the next course. If he fails at this examination he shall not again be examined in that branch until the expiration of the year, unless admitted to conditions by vote of the faculty on recommendation of the head of the department in which he has failed.

On recommendation of the head of a department, any student who has failed on examinations as above provided in the study of that department, may by vote of the faculty be allowed to enter upon the work of the next year, but he shall not be admitted to any examination of that year until he shall have passed a satisfactory examination in the study or studies which he had previously failed to pass.

No student will be admitted to the privilege of conditions if he has failed in more than two departments.

An examination which is not complete receives no consideration.

The systematic course of instruction will begin on Monday morning, the 18th of October, 1915.

On arriving in Brunswick students should apply to the Deputy Dean, Dr. F. N. Whittier, enter their names, receive directions concerning their examinations, if any are needed, pay their fees, and be advised as to boarding places.

In Portland they should apply, for the same purpose, at the office in the medical building, Chadwick street.

GRADUATION

A candidate must be twenty-one years of age, and must have devoted to his professional studies four years, including a course of instruction in each of these years in some reputable, regular, incorporated medical institution, and the last course previous to examinations must have been in this school. He must present a satisfactory certificate of good moral character from a citizen of the town in which he resides. He must also pass satisfactory examinations in the required studies previously specified and present a thesis on some medical subject, a fair copy of which

Graduation

must be handed to the Dean at least ten days before the beginning of the final examinations.

EXPENSES

FOR INSTRUCTION: In each of the required four years \$100. This shall be paid promptly, one-half at the opening of the course and the balance on the first Tuesday in February.

FOR EXAMINATIONS: Payable at the close of the term of instruction,

In Anatomy	\$5.00
In Physiology	5.00
In Chemistry	5.00
In Bacteriology and Pathology	5.00
In Obstetrics	5.00

These five fees are credited on the diploma or graduation fee.

For every re-examination in any of the departments in any year, \$3.00. This fee is not credited on the diploma fee.

For examination or re-examination in any branch, at a time not regularly appointed, a fee of \$5.00 must be paid in addition to the prescribed fee for that examination.

MISCELLANEOUS: The Matriculation fee of \$5.00 is required of every student each year.

For materials used in the chemical laboratory courses, \$3.00 for first course, \$2.00 for second course, payable in advance.

For materials used in the physiological laboratory, \$2.00 for first course, \$1.00 for second course, payable in advance.

For anatomical material, its cost, payable in advance.

For graduation fee (not returnable), including the parchment diploma, \$25. This will have been paid in the examination fees of the previous years.

COURSES OF INSTRUCTION

ANATOMY

PROFESSOR TOBIE, ASSISTANT PROFESSORS ELLIOTT AND DRUMMOND AND DOCTORS ROBINSON, LIPPINCOTT AND KING

1. Systematic Anatomy. Lectures, demonstrations and recitations. Whole year: Tuesday, Friday, 9.30-10.30, except six weeks following the Easter vacation. PROFESSOR TOBIE

2. Recitations. Gerrish's Text-Book. Tuesday, 8.15-9.15, until the Easter vacation. ASSISTANT PROFESSOR DRUMMOND

3. Recitations. Gerrish's Text-Book. Friday, 8.15-9.15.
DOCTOR ROBINSON

4. Osteology and Arthrology. Recitations and student demonstrations from the dried specimens. Whole year: Thursday, 8.15-9.15 and 9.30-10.30, except six weeks following the Easter vacation. ASSISTANT PROFESSOR DRUMMOND

Courses 1, 2, 3, 4 cover osteology, arthrology, myology and splanchnology, the last including the central nervous system and special sense organs. Surface anatomy is studied on the living model and free use is made of dissected specimens, models and casts with which the Calvin Seavey museum is well supplied. Students are provided with disarticulated skeletons which remain in their possession throughout the year.

For First year students.

5. Practical Anatomy. Dissecting. Six weeks following the Easter vacation: six half-days a week.

PROFESSOR TOBIE, ASSISTANT PROFESSORS ELLIOTT AND DRUMMOND AND DOCTORS ROBINSON, LIPPINCOTT AND KING

One hundred and thirty-five hours are devoted to practical anatomy and at least one part of the cadaver is dissected.

For First year students.

6. Systematic and Applied Anatomy. Lectures, demonstra-

Courses of Instruction

tions and quizzes. Whole year: Tuesday, Friday, 8.15-9.15, except six weeks following the Easter vacation.

PROFESSOR TOBIE

This course includes systematic consideration of myology, angiology and neurology. Regional and applied anatomy are treated by lectures, quizzes and demonstrations, the last named involving the use of casts, recent and dried specimens and the living model.

7. Recitations. Gerrish's Text-Book. Myology, angiology, and neurology. Tuesday, 9.30-10.30, until the Easter vacation.

ASSISTANT PROFESSOR DRUMMOND

8. Recitations. Gerrish's Text-Book. Friday, 9.30-10.30.

DOCTOR ROBINSON

Courses 6, 7, 8 are for Second year students.

9. Dissecting. Six weeks following the Easter vacation: daily, 8.00-11.30 and 1.30-5.30.

PROFESSOR TOBIE, ASSISTANT PROFESSORS ELLIOTT AND DRUMMOND AND DOCTORS ROBINSON, LIPPINCOTT AND KING

During the dissecting term students are required to dissect and demonstrate a complete lateral half of the cadaver. In recent years the abundant supply of dissecting material has enabled each student to dissect practically twice the required number of parts. Second year students are required to spend two hundred and seventy hours in the anatomical laboratory and this requirement also, is usually exceeded.

For Second year students.

CHEMISTRY

PROFESSOR CRAM AND MR. MESERVE

1. Analytical Chemistry. First half-year: Monday, Wednesday, Friday, 1.30-4.30.

MR. MESERVE

This course assumes a knowledge of first year chemistry which is required for entrance. The aim of the course is not so much to train analysts as to impart familiarity with chemical substances and principles. The work is mainly in the laboratory, the book used being Tower's Qualitative Chemical Analysis. Most of the

Bowdoin Medical School

time is devoted to qualitative analysis which is followed by a few exercises in quantitative.

For First year students.

2. Organic Chemistry. Second half-year; same hours, except that the Wednesday hours are omitted for the six weeks following the Easter vacation.

MR. MESERVE

This course is given mainly by lectures with some laboratory work in the preparation of certain organic compounds. Attention is given to the important classes into which organic compounds are divided and to properties and reactions common to the whole class, rather than to specific compounds and special reactions. The compounds chosen to illustrate each class are as far as possible those of importance to the physician.

3 and 4. Physiological Chemistry. Whole year; Thursday, 8.30-12.30, except six weeks following the Easter vacation.

PROFESSOR CRAM

The book used is Hawk's Practical Physiological Chemistry. The work is mainly in the laboratory, supplemented by assigned readings and quizzes. This is followed by urinary analysis, the analysis of foods, detection of poisons, and the analysis of drugs and medicines.

First year men who have had satisfactory courses in analytical chemistry and organic chemistry, take the regular work in physiological chemistry with the Second year men their First year. In their Second year such men will be given an opportunity to do advanced individual work in the newer methods of urinary analysis and in research. Men desiring to be excused from either first year course should present certificates from previous instructors stating the rank which they have received.

The aim is to make the chemical courses as practical as possible. To this end the student is taught how to construct apparatus and prepare reagents as well as to use them. Particular attention is given also to the literature so that a man may become familiar with the standard works of reference in each department. For this the equipment of the Searles Science Building is fully adequate.

Each student is required to pay in advance at the office of the Deputy Dean a laboratory fee, covering the average cost of chemicals, gas and water. This is \$3.00 for the First year and \$2.00 for the Second year. In ad-

Courses of Instruction

dition each will pay for apparatus broken or not returned at the end of the term.

DERMATOLOGY

PROFESSOR PUDOR

Didactic and clinical lectures. Dispensary. One hour a week.
Clinic sections, one hour a week.

For Third year students.

DISEASES OF THE NOSE AND THROAT

PROFESSOR DAVIS

Didactic and clinical lectures. Dispensary. One hour a week.
Clinic sections, one hour a week.

Special attention will be given to the anatomy of the parts, to diagnosis, and to the clinical study of the conditions which the general practitioner is most often called upon to treat. Clinical instruction will continue through the Fourth year.

For Third year students.

GENITO-URINARY SURGERY

PROFESSOR ALFRED MITCHELL, JR.

Didactic and clinical lectures. Dispensary. One hour a week.
Clinic sections, one hour a week.

For Third year students.

GYNECOLOGY

PROFESSOR THOMPSON AND DOCTORS W. BEAN MOULTON AND
PHILIP P. THOMPSON

Lectures, quizzes, recitations and demonstrations. Whole
year: Wednesday, 10.00. PROFESSOR THOMPSON

For Third year students.

2. Course in the examination of female patients. History-taking, instruction in "Touch Examinations." Dispensary.
Whole year: Monday, Thursday, 11.00.

DOCTORS W. BEAN MOULTON AND PHILIP P. THOMPSON

For Fourth year students.

Bowdoin Medical School

3. A course in the microscopical examination of fresh and prepared sections from gynecological cases. Twelve hours during the second half-year. DOCTOR W. BEAN MOULTON

For Fourth year students.

4. Gynecological operations at the Maine General Hospital of which notice is given.

HISTOLOGY AND EMBRYOLOGY

PROFESSOR COPELAND AND ASSISTANT PROFESSOR GROSS

1. Histology. Text-book, lectures and laboratory exercises. First half-year: Monday, 8.30-11.30, Thursday, 1.30-4.30.

The elementary tissues are first studied, then the microscopic anatomy of the various organs of the human body. Some practice is provided in histological technic.

For First year students.

2. Embryology. Text-book, lectures and laboratory exercises. Second half-year: Monday, 10.30-12.30, Tuesday, 1.30-5.30.

This course serves as an introduction to vertebrate embryology with special reference to the human embryo. It treats of the reproductive cells, maturation, fertilization, cleavage, the formation of the germ layers, the development of the primitive segments, the formation of the fetal membranes and organogeny.

For First year students.

MATERIA MEDICA, PHARMACOLOGY AND THERAPEUTICS

PROFESSOR HUNT AND DOCTOR DERRY

1. Pharmacology. First half-year: Monday, 8.00-9.00, Tuesday, 8.00-9.00.

This is a text-book course of thirty hours. It gives the student a general idea of the action of the more important drugs.

For Third year students.

2. Laboratory Materia Medica and Pharmacology. First half-year: Monday, Thursday, 4.00-6.00.

Courses of Instruction

This is a laboratory course of sixty hours. Early in the course are taken up Plant, Chemistry, the manufacture of pharmaceutical preparations and the study of incompatibles. The last three-fourths of the course are devoted to experimental pharmacodynamics. The students perform experiments, either individually or in groups, on living animals. These experiments give the students a first-hand knowledge of the action of the more important drugs.

For Third year students.

3. Pharmacology and Therapeutics. Second half-year: Monday, 8.00-9.00, Tuesday, 8.00-9.00.

This is a lecture course of thirty hours. Instruction is by lectures and quizzes. The systematic study of drugs and other remedial agents and their application to the treatment of disease is begun.

For Third year students.

4. Continuation of Course 3. First half-year: Monday, Wednesday, 11.00-1.00.

This is a course of sixty hours.

For Fourth year students.

5. Therapeutics. Second half-year: Monday, Wednesday, 11.00-1.00.

This is a text-book course of sixty hours.

For Fourth year students.

The total number of hours of instruction in this department is 240.

MEDICAL ETHICS

PROFESSOR GERRISH

- Medical Ethics. First half-year: Saturday.

A course of lectures on the moral principles, which should control the conduct of the medical practitioner. The sections of the formal code of ethics are discussed and explained, special emphasis being laid upon those portions that most need elucidation; and instruction is given upon various other matters concerning duty, on which the young physician particularly needs advice and guidance.

For Fourth year students.

Bowdoin Medical School

MEDICAL JURISPRUDENCE

LECTURER PAYSON

Medical Jurisprudence. Second half-year: Saturday.

The instruction in Medical Jurisprudence, in a course of twelve or fifteen lectures followed by an examination, will be directed to a discussion of and practical suggestions about:

First: The legal relations between physicians and their patients.

Second: The rights and obligations of physicians when appearing in Courts of Justice as medical expert witnesses.

Third: Certain subjects in legal medicine of importance to physicians which do not fall within either of the foregoing divisions.

For Fourth year students.

MEDICINE -

PROFESSORS THAYER, KEATING AND BURRAGE, AND DOCTORS
WELCH, MILLIKEN, EMERY, FILES AND FOLSOM

1. A preliminary survey of the whole field of Practice of Medicine as covered in the text-book of Osler. Three hours a week.

PROFESSOR KEATING

2. Practical instruction in physical examinations. Sections. Dispensary. Six hours a week.

PROFESSOR BURRAGE AND DOCTORS WELCH, MILLIKEN AND FOLSOM

3. Clinical Diagnosis. City Hospital. Two hours a week.

PROFESSOR THAYER

4. Tuberculosis clinic. Dispensary. Sections. Tuesday and Friday, 11.30 to 1.00.

DOCTOR WELCH

Courses 1, 2, 3 and 4 aim especially to teach a practical technic in the making of succinct case-histories, in the physical examination of patients, and in the laboratory study of blood, stomach-contents, faeces, urine and sputum.

For Third year students.

Courses of Instruction

5. Bedside and laboratory study in wards. Maine General Hospital. Sections. Ten hours a week.

PROFESSOR KEATING AND DOCTORS EMERY AND FILES

6. Specially assigned topics. Case reports. Clinical conferences. Two hours a week.

PROFESSOR THAYER

7. Amphitheatre clinic. Tuesday, 9.00-11.00.

PROFESSOR THAYER

Courses 5, 6 and 7 are intended to teach each student to sift his facts,—to correlate the subjective symptoms related by the patient with his own objective findings after examination,—and to reason soundly in the direction of prognosis and treatment.

For Fourth year students.

MENTAL DISEASES

DOCTOR TYSON

Lectures. Laboratory demonstrations. Clinics. Examinations of cases by individual students. Three entire Saturdays at the Maine Insane Hospital.

For Fourth year students.

NEUROLOGY

PROFESSOR SWIFT

Clinics. Lectures. Laboratory work. Recitations. Whole year, Tuesday, Friday, 5.00-6.00.

For Fourth year students.

OBSTETRICS

PROFESSOR McDONOUGH, ASSISTANT PROFESSOR SMALL, AND
DOCTORS HATCH AND EVERETT

1. Lecture or Conference. Monday, Friday, 9.00-10.00.

PROFESSOR McDONOUGH

2. Quiz. Saturday, 9.00-10.00.

ASSISTANT PROFESSOR SMALL

Bowdoin Medical School

3. Section work on manikin. Hours to be assigned.

DOCTOR EVERETT

4. Examinations of patients to determine position and pelvic measurements, and attendance on cases. At Dispensary under direction of Doctor Everett, and at Temporary Home under direction of Doctor Hatch.

Arrangements have been made with the Boston Lying-in Hospital whereby students who have passed examination in obstetrics at end of Third year, will attend course of ten days or two weeks during summer or fall. If assignments come during school term, credit for attendance is allowed those absent in Boston. There is no added expense. Students must present certificates of attendance on at least six cases (the average number is ten) before presenting themselves for graduation.

OPHTHALMOLOGY AND OTOTOLOGY

PROFESSOR WILLIS BRYANT MOULTON AND DOCTORS LITTLE,
M. C. WEBBER, ALLEN AND HOLT

1. Lecture and quiz course. Whole year: one hour a week.
2. Clinics. Maine General Hospital. Whole year: one hour a week during the year.
3. Clinics. Dispensary. Whole year: two hours a week.
4. Fourth year students will receive instruction in sections at the Eye and Ear Infirmary.

ORTHOPEDIC SURGERY

PROFESSOR ABBOTT AND DOCTORS PINGREE AND LAMB

1. Didactic and clinical lectures. Children's Hospital. One hour a week.
2. Individual instruction in clinical examinations, plaster work, dressings and studies in the use of the X-ray. Sections. Ten hours a week.

For Fourth year students.

PATHOLOGY, BACTERIOLOGY AND HYGIENE

PROFESSOR WHITTIER AND DOCTORS FULLER AND LIPPINCOTT

Courses of Instruction

1. Hygiene. Lectures and laboratory work. Second half-year: Thursday, 1.30-4.30, Friday, 10.30-12.30, except six weeks following the Easter vacation.

Eighteen of the hours are didactic and twenty-seven are laboratory work. Lectures are given on personal hygiene and include such subjects as exercise, ventilation, sources of food and water supply, first aid in emergency cases, effects of alcohol, and sex hygiene. The course is also designed to give an introduction to Bacteriology and includes introductory lectures on that subject. The laboratory work includes simpler bacteriological technic, microscopical examination of foods, practical experiments in disinfection and routine examinations of water and milk.

For First year students.

2. Bacteriology. Lectures and laboratory work. First half-year until Christmas vacation: Monday, Tuesday, Wednesday, Friday, 1.30-5.30.

This course occupies sixteen hours a week for nine weeks. Forty of the hours are didactic and one hundred and four are laboratory hours. Students are required to prepare most of the media and solutions used in this course. Each student is required to cultivate upon media twelve varieties of pathogenic bacteria and to study their characteristics. Animal inoculations and autopsies are performed by the students. Special attention is given to laboratory diagnosis of tuberculosis, diphtheria and typhoid fever.

For Second year students.

3. General Pathology, including Pathological Histology, also Pathology of the Blood. From Christmas vacation to the end of the year except six weeks following the Easter vacation: Monday, Tuesday, Wednesday, Friday, 1.30-5.30.

This course occupies sixteen hours a week for fifteen weeks. Sixty of the hours are didactic and devoted to quizzes and lectures and one hundred and eighty are laboratory hours. Mallory's text-book is used as a basis for the course in Pathological Histology. The text-book is supplemented by lectures on Gross Pathology and special subjects. As far as possible the consideration of a subject in the classroom is followed by a study of the same subject in the laboratory. Much time is given be-

Bowdoin Medical School

fore the Easter vacation to diagnosis work upon the microscopical preparations. The last two weeks of the course are devoted largely to the study of the pathology of the blood and the technic of blood examinations. Students are trained in counting red and white corpuscles, in estimating amount of hemoglobin, in preparation and examination of stained specimens.

For Second year students.

4. Clinical Pathology. Practical work by assignment in the Portland hospitals and in the school laboratory. Also scheduled work in the school laboratory from the Easter vacation to the end of the year: Tuesday, 2.00-5.00, Wednesday, 2.00-4.00.

The scheduled course occupies five hours a week for nine weeks. Eighteen of the hours are didactic, and twenty-seven are laboratory hours. The course in Clinical Pathology occupies at least eighty hours. Of these only forty-five are scheduled.

Arrangements have been made with the Maine General Hospital, the Maine Eye and Ear Infirmary and the Edward Mason Dispensary for Third year students to do pathological work in these institutions. Regular assignments are made and reports of work done required. By arrangement with the physicians in charge special attention is given to the clinical side of this work.

Instruction is given as opportunity occurs at surgical clinics and autopsies. In the work at the Medical School building each student examines microscopically tissues and other pathological material obtained at the Maine General Hospital, Maine Eye and Ear Infirmary, Children's Hospital and Edward Mason Dispensary. Whenever possible students are required to obtain material from the patients.

Students receive special training in the technic of preparing bacterial vaccines, also in performing the Wassermann test for syphilis.

For Third year students.

PEDIATRICS

PROFESSOR WEBSTER AND DOCTOR MOORE

1. Recitations based on text-book, together with clinical demonstrations at the Children's Hospital. First half-year: Monday, 5.00, Medical School; Wednesday, 10.00, Children's Hospital.

Courses of Instruction

2. Recitations conducted by the case teaching method, emphasizing differential diagnosis and treatment. Second half-year: at the same hours.

3. Clinical instruction of small sections. Whole year: Tuesday, Thursday, Saturday, 11.00-1.00, Edward Mason Dispensary.

Infant care and feeding at the Portland Milk Station clinic.

Diseases and disorders of children at the Dispensary clinic.

4. Clinical instruction in acute diseases of childhood at the Children's Hospital and at the Female Orphan Asylum. By appointment throughout the school year.

Courses 1, 2, 3, 4 are for Fourth year students.

PHYSIOLOGY

PROFESSOR SMITH AND DOCTORS BOLSTER AND LIPPINCOTT

1. Functions of Nutrition. First half-year: recitations and lectures until December 1; from December 1 to March 28, laboratory work twice weekly, 8.00-10.30. A total of 88 hours.

DOCTOR BOLSTER

This course will include the graphic study of Nerve-Muscle physiology; the physical and microscopical study of Blood; the phenomena and physics of Circulation, Respiration, Secretion, Excretion and Digestion; Metabolism and Animal Heat.

The laboratory is equipped with a set of Harvard apparatus sufficient for the use of the entire class in groups, each group having its own complete outfit. There is an ample equipment of demonstration and other apparatus and models.

There are frequent written reviews and quizzes and a final laboratory examination is held at the close of this course.

2. Continuation of Course 1. Recitations, supplementary lectures and demonstrations. Second half-year: Wednesday, Saturday, 8.15-10.30.

PROFESSOR SMITH

Courses 1, 2, are for First year students.

3. Functions of Relation, Recitations and lectures with nec-

Bowdoin Medical School

essary demonstrations. From opening of year to March 28, twice weekly, 8.15-10.30. PROFESSOR SMITH

The work includes the study of Reproduction, the Nervous System, the Physiology of Voice and Speech, the Special Senses, and the mechanics of the Muscular System. The equipment in models of the Nervous System and Special Sense organs is ample for all demonstration work, and students will have opportunity for personal study of the models of the Nervous System which are of the latest design and of special excellence.

4. Laboratory demonstration exercise, in connection with the Nervous System and the Special Senses. This course will cover over 40 hours. December, January, February, March: Monday, 8.00-11.00. PROFESSOR SMITH AND DOCTOR LIPPINCOTT

Work in Physiology for the Second year students is suspended for the six weeks of the dissecting term and resumed for review recitations at its close.

Courses 3, 4 are for Second year students.

Instruction in the department of Physiology will be conducted with particular reference to the practical application of the facts of human physiology to the needs of the student in his study of the diagnosis and treatment of disease.

A laboratory fee will be charged to defray the cost of material, which fee must be paid at the office of the Deputy Dean before beginning the laboratory course. This fee is \$2.00 for the First year and \$1.00 for the Second year. Students furnish at their own expense necessary instruments for nerve-muscle dissection, and are charged with the cost of loss and injury to apparatus.

PUBLIC HYGIENE

PROFESSOR EVANS

Public Hygiene. First half-year: Tuesday, 2.45 to 4.45.

Principles of public sanitation. Source and character of public and private water supplies and the interpretation of the results of their analysis. Collection and disposal of waste sewage and garbage with reference to preventable diseases. Health boards, and their relation to the public. Study of the epidemiology of infectious disease.

For Third year students.

Courses of Instruction

SURGERY

PROFESSORS KING, BROCK AND BRADFORD, AND DOCTORS TWITCH-
ELL, WILLIAMSON, C. M. LEIGHTON, HANEY AND
M. A. WEBBER

1. General Surgery. Whole year: Wednesday, Friday, Saturday, 8.00-9.00.

There will be special instruction in bandaging, surgical technic, the administration of anaesthetics, the use of surgical instruments, the principles of surgery, general surgery, fractures, dislocations and hernias. This will enable students to enter upon their fourth year with a comprehensive view of surgery.

For Third year students.

2. Clinical General Surgery. Whole year: Maine General Hospital, Thursday, 10.00; Mason Dispensary, Monday, 12.00-1.00.

The clinic at the Maine General Hospital will be given by a member of the visiting staff. The clinical instruction at the Mason Dispensary will be given by the professor of surgery.

For Third year students.

3. Special Surgery. Whole year: Monday, Friday, 9.00-10.00, Thursday, 5.00-6.00.

There will be instruction in the special surgery of the various organs and tissues of the body, except those taught in special departments.

For Fourth year students.

4. Clinical Special Surgery. Whole year: Ward visits in sections at the Maine General Hospital, Monday, Tuesday, Thursday, Saturday, 11.00-1.00. Operations in the amphitheatre. Operations by students on the cadaver.

Students will be notified by telephone of accident cases brought to the Hospital. They will also be afforded opportunities by the surgical staff of the Mason Dispensary of observing and assisting in the care of cases in their daily service. The surgical clinical advantages of the City Hospital, Marine Hospital and other institutions in Portland will be utilized. While a large amount of surgical clinical material is available, it is the purpose of the School to use it in a way to strengthen and not lead to the neglect of other and essential studies.

For Fourth year students.
